

SHREYASH RUKE

Aspiring Software & Cybersecurity Engineer | Avid Learner Exploring New Technologies

Pune, Maharashtra | +91 95791 96005 | shreyashruke@gmail.com

EDUCATION

B.Tech, Information Technology (CSE — IoT & Cyber Security Blockchain Technology)

Vishwakarma Institute of Information Technology, Pune • CGPA: 8.16

Higher Secondary Education

Sambhaji Raje Junior College, Jategaon • 77.67%

Secondary Education

Vidyadham Highschool, Kanhur • 91.80%

SKILLS

- **Programming Languages:** C++, JavaScript, Python, Bash(Linux)
 - **Frontend:** HTML5, CSS3
 - **Backend:** Node.js, Express.js, JWS
 - **Databases:** MongoDB
 - **AI/LLM:** LangChain, Ollama, Hugging Face, OpenAI API
 - **Cyber-Security:** Network Security, OWASP Top 10, Vulnerability Assessment, Penetration Testing, Wireshark, Nmap, Burp Suite, Basic Cryptography
 - **Developer Tools:** Git, GitHub, VS Code, Postman, Android Studio, Linux
 - **Core Concepts:** REST APIs, OOP, DSA, DBMS, Operating Systems, Computer Networks, Cybersecurity
-

PROJECTS

Prostate Cancer Diagnosis Using Machine Learning

- Co-authored and published a research paper applying ML models to assist in prostate cancer diagnosis.
<https://ieeexplore.ieee.org/abstract/document/11284281>

AI Terminal Assistant

- AI Terminal Assistant - give it a prompt to do certain task and it automatically executes it in BASH terminal
https://github.com/flowerisnice/AI_Terminal_Assistant

IoT-Based Solution for Onion Storage Monitoring

- Built a smart storage monitoring system using Arduino, HTML, and CSS to track and improve onion storage conditions. <https://github.com/flowerisnice/classroom-iot>

Travel and hotel management Website

- Developed a full-stack travel website using HTML, CSS, JavaScript, Node.js, and Express.js.
<https://github.com/flowerisnice/Oxyriva>

CERTIFICATIONS

CCNA — Cisco Certified Network Associate

- Covers foundational knowledge to install, configure, operate, and troubleshoot routed and switched networks.

Web Development Bootcamp — Udemy

- HTML, CSS, JavaScript, Node.js, Express, and JWT-based authentication.

LangChain & Agentic AI — Udemy

- Building AI agents with LangChain and LangGraph covering RAG, and production-ready agentic AI systems in Python.
